3. In connection with General McClelland's interest in S. 4231 - 85th Congress, a bill introduced by Senator Warren G. Magnuson (D., Wash.) (by request) amending the Communications Act of 1934, contact was made with Mr. Jarrett, Chief Clerk of the Senate Committee on Interstate and Foreign Commerce. Jarrett said he did not know whether Magnuson would reintroduce this bill but expected that he would. The purpose in introducing the bill late in the 85th Congress was to provide an opportunity for obtaining the views of the various departments and agencies on it. The Bureau of the Budget has been queried as to whether a position has been developed on this legislation. General McClelland will be advised.
